Basic Information

Height: 30"

Length: 42"

Depth: 42"

Weight: 142 lbs

Materials

- 3" round steel tubing
- 3/8" solid steel sheet metal
- 11 GA solid steel sheet metal

Construction

-Top: top is constructed from 11 GA sheet metal that has been bolted onto a mounting plate.

-Base: This mounting plate secures to a 3" round tubing post, supported brackets. The post welds to a 3/8" mounting plate

Powder Coat Finish Procedure

1. Metal substrate is shot-blasted to remove contaminants and create an optimal etched profile for powder adhesion.
2. Substrate is then washed with an alkaline rinse to further enhance coating effectiveness.
3. An industrial sealer is applied to the piece to inhibit rusting.
4. The piece is then coated with an epoxy powder coat primer and subsequently cured in our oven according to manufacturer's guidelines.
5. The metal returns to the powder booth for application of UV-resistant, polyester powder coat finish and is cured again in the oven. The furniture emerges with a beautiful and durable exterior that is capable of withstanding the rigors of demanding public spaces.

Warranty

The Renaissance team warrants the quality of every site amenity that leaves our factory. If the product is installed according to our recommendations, we will guarantee the frame construction for **the life** of the item. All other components are guaranteed for three years after shipment.
